

Report Samples - Construct Grouping

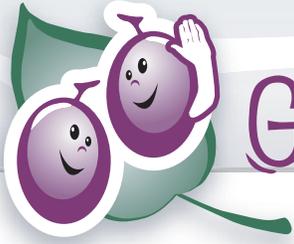

Analyze your data by combining multiple question data into construct groups that evaluate similar facets of your organization.

The screenshot shows the Grapevine Administration Control Center interface. At the top, there is a navigation bar with links for Support, User Administration, Survey Templates Tips & Tricks, and Logout. Below this is a header for the 'Administration Control Center' with a 'SELECTED SURVEY' dropdown set to '407 ETR Customer Survey' and buttons for 'Create Survey', 'My Surveys', and 'Preview Survey'. The main content area is titled 'Construct Grouping' and features a '+ Add' button and a table with the following columns: 'Select Construct', 'Construct Name', and 'Action'. The table contains three rows: 'Select All' (checked), 'Customer Service' (checked), and 'Brand Awareness' (checked). Each row has 'Edit | Delete' links in the Action column. Below the table are 'Summary' and 'Graph' buttons. A yellow callout box with the number '1' and the text 'Select Construct' points to the 'Select Construct' column header.

Select Construct	Construct Name	Action
<input checked="" type="checkbox"/> Select All		
<input checked="" type="checkbox"/>	Customer Service	Edit Delete
<input checked="" type="checkbox"/>	Brand Awareness	Edit Delete
